# Report of the statutory auditor to the General Meeting of Groupe Acrotec SA, Develier

### **Report on the Audit of the Consolidated Financial Statements**

### Opinion

We have audited the consolidated financial statements of Groupe Acrotec SA, Develier and its subsidiaries (the Group), which comprise the consolidated balance sheet, consolidated income statement, consolidated statement of cash flows, consolidated statement of changes in equity and notes to the consolidated financial statements, including a summary of significant accounting policies as at December 31,2020.

In our opinion the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2020, its consolidated results of operations and its consolidated cash flows for the year then ended in accordance with Swiss GAAP FER and comply with Swiss law.

### **Basis for Opinion**

We conducted our audit in accordance with Swiss law and Swiss Auditing Standards. Our responsibilities under those provisions and standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We are independent of the Group in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters (based on the circular 1/2015 of the Federal Audit Oversight Authority)

- Carrying value of goodwill
- Valuation of inventories

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

### Carrying value of goodwill

### Areas of focus

Carrying value of goodwill was deemed a key audit matter as goodwill is significant to the consolidated financial statements, with a value of CHF 247.7 million representing 41.7% of total assets. The determination of the amortization period of acquired goodwill, the identification of impairment indicators and the performance of the impairment test give significant scope for judgement to the Board of Directors and management. In assessing the recoverable value of goodwill, the Board of Directors and management are required to estimate future cash flows and to make assumptions relating to future profitability, including revenue growth and operating margins. They are also required to determine an appropriate discount rate. The outcome of the impairment assessments and by the same way the carrying value of goodwill could vary significant if different judgements are applied.

### Our audit response

Goodwill is amortized in accordance with group accounting policies over a 20 years period. The identification of impairment indicators and the performance of impairment testing of goodwill are based on a process defined by the Board of Directors. The identification of impairment indicators is done with the EBITDA multiple method. In case of impairment indicators, the recoverable value of the corresponding goodwill is determined based on management's estimation of the future cash flows.

We considered the controls implemented by management for the annual review of the goodwill useful lives, the identification of impairment indicators and in determining the recoverable value of goodwill presenting impairment indicators.

We assessed the factor used by management in applying the EBITDA multiple method based on reliable and independent data.

For goodwill presenting impairment indicators, we assessed the accuracy of the impairment test applied to significant amounts of goodwill, the appropriateness of the assumptions and the methodology used by management to prepare its cash-flows forecasts. We challenged management as to the feasibility of reaching the expected cash flows. In addition, we assessed the main parameters used in the calculation of the weighted average cost of capital from which the discount rate is derived.

For further information on Carrying value of goodwill, refer to the following:

- Note 2.k, "Summary of significant accounting policies" "Intangible assets"
- Note 12, "Intangible assets"

### **Valuation of inventories**

### Areas of focus

Inventory of CHF 58.4 million is a material balance for the Group, which requires management judgement in determining an appropriate costing basis for each subsidiary depending on its activity and assessing if the value is lower than the net realizable value of the inventory on hand at year-end.

There are also judgements required in determining inventory excess and obsolescence provisions as these are based on forecast inventory usage and assessing if the provision level is adequate.

Since the Group is in a phase of growth, including through acquisition, the costing is improved progressively. As observed in the past, management pursued the improvement of the costing in various production entities to be fully aligned with Group requirements.

### Our audit response

We performed the following audit procedures to assess the valuation of the inventories:

We compared the inventory excess and obsolescence provisions to the group's policy and audited management's judgement by performing a review of the level of provisions as well as understanding the levels of demand for significant items. We investigated manual adjustments made to the mechanical application of the inventory obsolescence provisioning policy and assessed whether they were valid and in line with the final excess and obsolescence provision.

We verified that the costing methods implemented in several entities during the year, as well as the accounting treatment of the change and the corresponding disclosures were aligned with Swiss GAAP FER and Group accounting policies requirements.

For further information on Valuation of inventories, refer to the following:

- Note 2.h, "Summary of significant accounting policies" "Inventories"
- Note 8, "Inventories"
- Note 26, "Extraordinary result"

### Responsibility of the Board of Directors for the Consolidated Financial Statements

The Board of Directors is responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with Swiss GAAP FER and the provisions of Swiss law, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and Swiss Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Swiss law and Swiss Auditing Standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

## mazars

From the matters communicated with the Board of Directors or its relevant committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report, unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

In accordance with article 728a para. 1item 3 CO and Swiss Auditing Standard 890, we confirm that an internal control system exists, which has been designed for the preparation of consolidated financial statements according to the instructions of the Board of Directors.

We recommend that the consolidated financial statements submitted to you be approved.

### 1. Corporate information

Groupe Acrotec SA (the Company) and its subsidiaries (collectively the Group) are operating in the medical, micromechanical and watchmaking sectors. The Group supplies high quality Swiss made products to a diverse customer base.

The Company is a limited company incorporated and domiciled in Switzerland. Its registered office is located at Chemin de la Combatte 7, 2802 Develier.

These consolidated financial statements were approved for issue by the Board of Directors on 27 April 2021.

### 2. Summary of significant accounting policies

#### a. Basis of preparation

These consolidated financial statements provide a true and fair view of Groupe Acrotec's assets, financial position and earnings, and have been drawn up in accordance with all of the existing guidelines of the accounting and reporting recommendations of Swiss GAAP FER. The consolidated financial statements of the Group are based upon the financial statements of the Group companies as at 31 December and are established in accordance with the standardized reporting and accounting policies. The financial statements are based on the principle of historical acquisition costs and on the going concern principle. The statements are presented in Swiss francs (CHF) without cents which may create some insignificant differences due to roundings.

#### Changes in comparative figures

Some comparative figures have been restated to improve the quality of the published data, without impact on consolidated profit for the year 2019:

- Waste material sales reclassified from other operating income to material purchases
- Direct energy costs and direct tooling costs reclassified from other operating expense to material purchases

### b. Consolidation policies; business combinations and goodwill

The Group companies include all companies that are directly or indirectly controlled by Groupe Acrotec SA. Companies over which the Group exercises joint control are consolidated by the proportional method. In this respect, control is defined as the ability to control the financial and operating activities of the respective company, so as to obtain benefits from its operations. This control is normally evidenced by the holding of more than half of the voting rights of share capital of an entity. Group companies are consolidated from the date on which control is transferred to the Group. Subsidiaries intended for disposal are excluded from the consolidation from the date on which control ceases. Companies acquired over the course of the year are revalued and consolidated in accordance with Group principles upon the date of acquisition. The difference between the acquisition costs and the proportional revalued net assets is referred to as goodwill. The goodwill resulting from acquisitions is recognized in the non-current assets. The Notes to the consolidated financial statements disclose the effects of capitalization and amortization of the acquired goodwill (see Note 27). In the event that shares of the are sold, the difference between the proceeds from the sale and the proportional book value of the net assets, including historical goodwill, is recognized as a gain or loss in the income statement.

Non-controlling interests in equity and in net income are disclosed separately in the consolidated balance sheet and the consolidated income statement. Changes in ownership interests in subsidiaries are recognized as equity transactions, provided that control continues. Intercompany transactions, balances and unrealized gains and losses from transactions between Group companies are eliminated in full. Representation on the Board of Directors or access to the current financial information of a company are also indicators of significant influence.

### c. Scope of consolidation

At 31 December 2020, the Group's consolidation structure comprised 35 legal entities (2019: 35), 34 are fully consolidated and one is proportionally consolidated. Note 28 includes a complete list of Group companies. The business of Vardeco Inc, a US company owned by the Group, was expanded during the year 2020. It is therefore included in the scope of consolidation; it was integrated on January 1, 2020.

### d. Accounting estimates and judgments

The preparation of consolidated financial statements in conformity with Swiss GAAP FER requires the use of certain accounting estimates and judgments. Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are assumed to be reasonable under the given circumstances. Real results may differ from these estimates. Management continuously reviews and, if necessary, adapts the estimates and underlying assumptions. Any changes are recognized in the period in which the estimate is revised. Acrotec Group has assessed the consequences of the COVID-19 pandemic on the financial statements as per 31.12.2020, especially considering the impacts on key judgements and significant estimates.

### e. Foreign currency translation

### Foreign currency translation

Transactions in foreign currencies are translated to Swiss francs at their respective spot rate at transaction date. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to Swiss francs at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to Swiss francs at foreign exchange rates ruling at the dates the values were determined.

### Conversion of financial statements of foreign subsidiaries

Assets and liabilities of foreign subsidiaries are translated at rates of exchange ruling at the balance sheet date, while items of income statement are translated at average exchange rates of the year. The conversion of equity is carried out at historical rates. Foreign currency translation gains or losses due to the conversion of financial statements are offset against shareholders' equity, through a Cumulative Translation Adjustment Reserve.

The following exchange rates against Swiss Francs have been used to translate consolidated financial statements:

Currency	Unit	Average rate	Prevailing	Average rate	Prevailing
		2020	31/12/2020	2019	31/12/2019
		CHF	CHF	CHF	CHF
EUR	1.00	1.0822	1.0705	1.1125	1.0874
USD	1.00	0.8812	0.9381	0.9937	0.9683

### f. Cash and cash equivalents

Cash and cash equivalents on the balance sheet comprise petty cash, cash at banks and short-term deposits with an original maturity of three months or less. They are recorded at their nominal value. In the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above.

### g. Receivables from goods and services

Receivables from goods and services are recognized and carried at the original net invoice amount less an allowance for any specifically impaired receivables. Impairment is charged for receivables which are either more than 12 months overdue or for which specific risks have been identified. Bad debts are written off when there is objective evidence that the Group will not be able to collect the receivables. Allowances for impaired receivables as well as losses on trade receivables are recognized as other operating expenses.

#### h. Inventories

Inventories are valued at the lower of acquisition or production cost and fair value less cost to sell. Any discounts received are treated as cost reductions. Manufacturing costs comprise all costs directly attributable to material and production, as well as overhead costs incurred in building up the inventory at its current location and/or to its current condition. Acquisition costs are determined according to the weighted average cost method, although some production companies value their own produced inventories using the standard cost method or the retail method depending on their activity. As these costs and the margin for the retail method are regularly reviewed and updated, this method approximates the result of the weighted average method.

### i. Financial assets

Long term financial assets are recognized at nominal values. Any transaction income incurred is posted directly in the income statement. Financial assets are shown on the balance sheet as non-current assets. Financial assets which are convertible to cash at least 12 months after the balance sheet date are presented as current assets and are evaluated at current value.

### j. Property, plant and equipment

Property, plant and equipment are recorded on the balance sheet at historical cost less accumulated depreciation and any impairments. Acquisition costs comprise the purchase price as well as the costs directly attributable to the utilization of the property, plant and equipment. Investments in existing property, plant and equipment are only capitalized if their value in use is sustainably increased or their useful life is extended considerably. Self-constructed assets are only capitalized if they are clearly identifiable and the costs can be reliably determined, and if the assets generate measurable benefits for the Group over a period of several years. Maintenance and repair costs that do not add value are charged directly to the profit and loss account for the period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets, as follows:

Land noneBuildings 50 yearsVehicles 4 years

Machines and technical equipment
 10, 15 and 20 years according to the type of

machines

Measuring instruments, tools and10 years

processing equipment

Furniture
 5 and 10 years according to the type of furniture

- IT equipment 3 years

The residual values and the remaining useful life of property, plant and equipment are reviewed yearly and adjusted where necessary. The Group does not capitalize any interest expenses incurred during the construction period.

#### k. Intangible assets

#### Goodwill

The difference between the acquisition costs and the actual value of the net identifiable assets of the acquired company at the time of the purchase represents goodwill from business combinations. The goodwill resulting from acquisitions is recognized in Group long term assets at the time of the acquisition and amortized over a 20 years period.

### Capitalized development costs

Research costs are expensed when incurred. Development costs are only capitalized if they can be identified as intangible assets that will generate economic benefits in the future and the costs can be measured reliably. Other development costs, as validation by competent authorities, are expensed when incurred. Once a product enters commercial production, the capitalized development costs are amortized on a straight-line basis over the estimated useful life that may vary from 2 to 5 years.

### **Customer relationship**

Customer relationships are acquired through business combinations and are amortised on a straight-line basis over the estimate useful life of 10 years.

### **Software**

Purchased licenses giving the right to use new technologies or software are capitalized and are amortized over their estimated life, which is three years. Internally developed software is capitalized if it is probable that future economic benefits will be generated. The costs include the costs of in-house software development personnel and the direct share of related overheads. Costs capitalized on the balance sheet are amortized on a straight-line basis over the economic life (maximum three years).

### Other intangible assets

Other intangible assets relate licenses and rights of use as well as prepayments of intangible assets. Licences and right of use are amortized on a straight-line basis over the estimated useful life that may vary from 2 to 5 years.

### I. Impairment of assets

The recoverable value of non-current assets (including goodwill) is verified at every balance sheet date. If there are indications of a sustained impairment, the recoverable amount of the respective assets will be determined. The recoverable amount is the higher of the net selling price and value in use. If the recoverable amount of an individual asset cannot be determined, the Group estimates the recoverable amount of the smallest group of assets to which the individual asset belongs. If the book value of an asset exceeds the recoverable amount, an impairment loss is recognized separately in the income statement. In the event that a Group company is sold, any goodwill acquired at an earlier point in time is taken into consideration when determining the gain or loss in the income statement.

### m. Provisions

Provisions are recognized:

- when the Group has a present legal or constructive obligation as a result of past events,
- when it is probable that an outflow of resources will be required to settle the obligation, and
- when a reliable estimate of the amount of the obligation can be made.

The expense relating to any provision is presented in the income statement, net of any reimbursement. If the effect of the time value of money is material, provisions are discounted, using a current discount rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision in function of time is recognized as interest expense.

### n. Financial liabilities

Financial debts are recognized as nominal values. Any transaction costs incurred are posted directly to the income statement, except for the cost of bonds that are capitalized as financial investment and recognized as a financial expense over the duration of the liability. Financial debts are shown on the balance sheet as current liabilities, unless the Group has an unconditional right to postpone the settlement of the debt until at least 12 months after the balance sheet date.

#### o. Income taxes

The tax expense for the period comprises current income taxes and deferred taxes. Tax is recognized in the income statement, except to the extent that it relates to items recognized directly in equity. In this case, the tax is also recognized directly in equity.

#### **Current income tax**

Current tax liabilities and assets for the current and prior periods are measured at the amount expected to be paid to or recovered from the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the balance sheet date.

### **Deferred tax**

Deferred tax is recognized in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is determined using tax regulations and rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply. Deferred tax assets are recognized for all deductible temporary differences, carry forward tax losses and tax credits to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax is recognized on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference is controlled by the Group and it is not intended that the temporary difference will reverse in the foreseeable future.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### p. Pensions and other post-employment benefits

### Pension obligations

Group companies operate various pension schemes, which conform to the legal regulations and provisions in force. The actual economic effects of pension schemes on the Group are calculated at the balance sheet date. An economic obligation is recognized as a liability if the requirements for the recognition of a liability are met. An economic benefit is capitalized provided that this can be used for future Group pension contributions. Freely available employer contribution reserves are capitalized.

Employees of Acrotec Group companies are insured as part of separate legal entities and financed by contributions from both employers and employees. Surpluses or deficits are calculated based on the Pension Fund's financial statements, which have been drawn up in accordance with Swiss GAAP FER 26. The Group's pension costs include the employer contributions accrued in the period as well as any economic effects from the excess/shortfall and the change in employer contribution reserves.

### q. Share capital and treasury shares

Shares issued by Acrotec Group are recognized in equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Share capital consists of registered shares, each with a nominal value of CHF 100. Each share carries one vote and confer equal entitlement to dividends.

Own equity instruments that are reacquired (treasury shares) are deducted from equity. No gain or loss is recognized in the income statement on the purchase, sale, issue or cancellation of the Group's own equity instruments. In the event of a resale at a later point in time, a gain or loss is recognized as an addition to or reduction of capital reserves.

### r. Sales and revenue recognition

Net sales include the inflow of economic benefits from the sale of goods and services within the scope of ordinary business during the period under review. Sales reductions such as discounts, rebates and other concessions as well as payments to third parties such as commissions, credit card fees and any value added tax have been deducted from net sales reported. All intercompany sales are eliminated during consolidation.

Revenues are reported if a Group company has transferred the significant risks and rewards of ownership of products sold to the client, and the collectability of the related receivables is reasonably secured. Revenue from services is recognized in the accounting period in which the service is rendered. Accruals for discounts granted to clients are established during the same period as the sales which gave rise to the discounts under the terms of the contract.

#### s. Dividends

Dividend payments to shareholders are recognized in the Group's financial statements in the period in which the Annual General Meeting of the holding company has given its approval.

### t. Leases

### **Finance leases**

A finance lease is where the lessor transfers to the lessee practically all of the risks and rewards associated with the ownership of the leased item. At the beginning of the term of the lease contract, the lower of the fair value of the leased item or net present value of the future lease payments is shown on the balance sheet as assets and liabilities. Each lease payment is apportioned between the finance charges and the reduction of the lease liability, so as to achieve a constant rate of interest on the remaining balance of the liability. Finance costs are recorded directly in the income statement as expenditure. Capitalized leased assets are depreciated over the lower of estimated economic useful life of the asset or contract period.

### **Operating leases**

An operating lease is where a significant portion of the risks and rewards of ownership are retained by the lessor. Operating lease payments are recognized as expenses in the income statement on a straight-line basis over the lease term.

### u. Non-operating activities

Non-operating result is expense and income which arise from events or transactions that clearly differ from the usual business activities of the organisation. Expense and income from non-operating tangible fixed assets also form part of the non-operating result.

### v. Extraordinary

Expense and income which arise extremely rarely in the context of the ordinary operations and which are not predictable are considered as extraordinary.

### 3. Segment information

### a. Operating segment information

Operating segments are reported consistently with the internal reporting provided to the Management Board. Although the Group operates in different sectors, its various activities are aggregated in three reportable operating segments that are:

Shock absorbers, spring barrels, oscillating weights, manufacturing jewels, microengineering, precise and adapted tools for Swiss horology manufacturers and various other mission-critical components and products for the jewellery sector.

Precision High Tech High value added connectors for various end-markets such as automotive, aerospace and metal cut parts that go into turbochargers.

MedTech

High value added components for various MedTech sub-sectors such as hospital equipment (including dialysis

and diagnostics machinery), trauma, dental and surgery.

The reportable operating segments mainly generate their revenues from the manufacture and the sale of products to third parties. Corporate services do not qualify as a segment but are shown separately. They include the activities of the Group's holding, finance and other administrative services

Non-current	-	6'189'877	296'000	6'485'877

### Earnout to shareholders

As at December 31 2019, the Group had outstanding commitments in relation to acquisitions made in 2019 (Tectri, DPM and DPP). The amounts were based on a performance target for 2019, 2020 and 2021. During the financial year 2020, the Group paid out CHF 32'171'815 in earnout of which CHF 30'413'317 was accrued as at December 31 2019. At the balance sheet date, the Group estimates that earnouts to be paid based on performance target for 2020 and 2021 will amount to CHF 8'654'600.

### Other provisions

The majority of other provisions are bonus provisions amounting to CHF 1'606'177 as at 31.12.2020 (CHF 1'479'108 as at 31.12.2019).

The group had been involved in litigation with a patronage fund for several years. During the financial year 2020, this litigation was settled by the payment of CHF 60'000 (provision of CHF 150'000 as at 31.12.2019).

#### 18. Income tax

The major components of income tax expense for the years ended 31 December 2020 and 2019 are:

### a) Income tax expense

	2020	2019
Current income taxes		
Current year income taxes	-6'654'081	-6'804'944
Adjustments in respect of prior years	301'611	123'115
	-6'352'471	-6'681'829
Deferred taxes		
Relating to origination and reversal of temporary differences	-209'882	-1'707'320
Relating to adjustment of tax rates on prior year deferred taxes	-6'393	1'797'925
Relating to capitalization and use of taxes carried forward	1'520'490	-121'081
	1'304'214	-30'475
	-5'048'256	-6'712'304

### b) Group's effective tax rate

In 2020, the expected the expected tax rate is lower than 2019. The reconciliation between the theoretical and effective rate is presented below:

	2020	2019
Expected tax rate at weighted average applicable tax rate	20.46%	34.24%
Unrecognised deferred tax assets	0.00%	0.79%
Changes in tax rates on deferred tax *	0.53%	-8.73%
Prior years' taxes	-3.37%	-0.60%
Tax effect of non-tax deductible items	35.03%	5.50%
Other	3.85%	1.37%
Effective tax rate	56.48%	32.58%

<sup>\*</sup> During the first half-year 2019 the Swiss population has voted a new tax law and as a result tax rates will decrease from year 2020 in most Swiss cantons and therefore impacted the deferred tax computation of the previous period.

The effective tax rate based on the ordinary result in the year under review was 56.48% (previous year 32.58%).

### c) Deferred tax

Deferred tax assets and liabilities relate to the following balance sheet items:

	31/12/2020	31/12/2019
Receivables from goods and services	-295'869	-378'698
Inventories	-3'800'859	-3'857'237
Prepayments and accrued income	-	-1'063
Financial assets	-19'513	-19'513
Property, plant and equipment	-15'303'227	-15'672'023
Intangible assets	-1'415'578	-1'210'130
Long-term provisions	-2'123'579	-1'627'363
Loss carried forward	2'104'294	583'804
	-20'854'330	-22'182'222
Deferred tax assets	1'850'406	583'804
Deferred tax liabilities	-22'704'735	-22'766'027
	-20'854'330	-22'182'222
Tax (expense)/income from the change in deferred tax from temporary differences	1'327'893	-6'858'411
Variation due to acquired subsidiaries (Note 27)	-	-6'933'200
Change in exchange rate	23'679	105'265
Tax (expense)/income from the change in deferred tax from temporary differences	1'304'214	-30'475

Deferred tax assets resulting from deductible temporary differences, tax credits or losses carried forward are recognized only to the extent that realization of the related tax benefit is probable.

### 19. Share capital and reserves

### Share capital

Share capital is fully composed of ordinary shares. Over the past three years, the share capital of Group Acrotec SA has developed as follows:

Balance sheet date	Registered shares	Share capital in CHF
31/12/2019	1'000 at CHF 100.00	100'000
31/12/2020	1'000 at CHF 100.00	100'000

### Capital reserves

Capital reserves include non-distributable, statutory or legal reserves amounting to CHF 15'796'774 (2019: CHF 14'688'895).

20. Net sales from goods and services	2020	2019

Tools and supplies	-6'035'914	-7'040'649
Cost of external services	-18'392'482	-17'165'363
Energy	-3'003'180	-2'703'511
Others raw material expenses	-2'053'531	-1'294'691
	-74'804'798	-68'623'005
22. Personnel expenses	2020	2019
Wages and salaries	-74'051'839	-66'509'356
Social security costs	-14'429'962	-12'294'758
Others personnel expenses	-4'204'229	-4'258'905
	-92'686'030	-83'063'019

The Group received CHF 6'764'295 in unemployment benefits, of which CHF 393'933 were reimbursements of the employer's contribution to the compensation fund. These amounts are presented in the wages and salary, respectively in the social security costs.

At 31.12.2020, CHF 163'520 are receivable and are presented in prepayment and accrued income from third parties (note 9).

23. Other operating expenses	2020	2019
Maintenance, rents and energy	-9'940'965	-8'484'091
Leasing	-2'916	-8'786
Vehicle	-629'534	-577'846
Administration and IT	-6'705'037	-4'743'129
Insurance	-802'158	-722'343
Marketing and sales	-1'134'685	-1'333'280
Change in bad debt allowance	48'746	221'637
	-19'166'548	-15'647'838
Other operating expenses related to third parties	-14'955'290	-13'450'935
Other operating expenses related to shareholders of the ultimate parent	-4'211'258	-2'196'903
	-19'166'548	-15'647'838

24. Net financial result	2020	2019
Financial income	191'118	748'361
Financial income to shareholders of the ultimate parent	9'166	-
	200'284	748'361
Financial expense	-11'097'093	-8'928'062
Financial expense to shareholders of the ultimate parent	-359'807	-284'981
	-11'456'900	-9'213'043
	-11'256'616	-8'464'682

Financial income generated in 2020 and 2019 relates mainly to remunerative interest on investments. Financial income to shareholders generated in 2020 relates to remunerative interest on current accounts.

Financial expense generated in 2020 and in 2019 relates mainly to interest on bonds of CHF 9'469'569 (2019: CHF 7'410'338). Financial expense to shareholders generated in 2020 and in 2019 relates to interest on vendor loans.

25. Non-operating result	2020	2019
Non-operating income	2'185'848	874'534
Non-operating expense	-1'556'839	-1'614'031
Non-operating expense to shareholders of the ultimate parent	-339'812	-
Restructuring utilisation / expense (Note 17)	-	12'660
	289'197	-726'837

Non-operating income generated in 2020 relates mainly to payments of insurance indemnities (covering a fire claim) of CHF 1'710'354. Non-operating income generated in 2019 relates mainly to sales of gold and fixed assets, refund of non-operating tax and refund of an insurance.

Non-operating expense generated in 2020 and in 2019 relates to consulting fees (for mergers and acquisitions) and various taxes. In addition, in 2020, CHF 220'212 of payroll expenses for one employee (2019: CHF 823'341 of payroll expenses for two employees) of a group company have been classified as non-operating. This distinction was made as part of the reorganization of part of management's work. In addition the payroll expenses, which are contractually due, were subject to a provision as at 31.12.2020.

Non-operating expenses to shareholder are the result on the sale of a building to a related party.

26. Extraordinary result	2020	2019
Non-recurring income	719'320	511'541
Net change in estimate of inventory	710'370	-
	1'429'690	511'541
Non-recurrent expense	-232'912	-552'205
Net change in estimate of inventory	-	-1'298'231
	-232'912	-1'850'436
	1'196'778	-1'338'895

According to group policies, all items relating to previous exercices are systematically recorded as extraordinary result.

In 2020, non-recurring income is due to prior years income adjustments and a change in inventory valuation of CHF 710'370 (CHF - 1'298'231 in 2019). Some companies adapted their costing methodologies with the policy of Group Acrotec. The impact of the change in estimate was recorded as an extraordinary item.

In 2020 non-recurring expense is due to a prior year expense adjustment of CHF 232'912 (CHF 552'205 in 2019).

### 27. Business combinations

a) During year 2020, the Group did not acquire any companies.

In 2019, six companies were acquired by the Group and for three of them, the payment of an earnout was agreed in the shares purchase agreements.

In the financial year 2020, earnouts were paid for CHF 32'171'815 and an updated estimate of the amounts to be paid in 2020 and 2021 has been recorded as of 31.12.2020 (in provisions).

Total	35'166'357	
Acquisition costs	27'707	Acquisition costs correspond to consulting and legal expenses disbursed during the due diligence and integration process.
Oustanding earnout	2'966'835	To be achieved by 2020 and 2021
Price adjustment paid to vendors	32'171'815	The Group paid CHF 32'171'815 in cash as part of the consideration in accordance with the share purchase agreements.

The following table summarizes the recognized amounts of assets acquired and liabilities assumed at the acquisition date, as well as the consideration paid and the goodwill arising on acquisition:

Acquisitions of subsidiaries	2020	2019
Purchase consideration paid (incl. acquisition-related costs)	35'166'357	128'524'998
	Acquired values	Acquired values
Current assets	-	49'116'698
Property, plant and equipment	-	46'909'050

#### 30. Related party transactions

#### Terms and conditions of transactions with related parties

Unless specified below, the transactions with related parties are made at terms equivalent to those that prevail at arm's length. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. For the year ended 31 December 2020, the Group has not recorded any impairment of receivables relating to amounts owed by related parties (2019: CHF Nil).

The following table provides the total amount of transactions that have been entered into and the outstanding balances with related parties for the relevant fiscal year:

		Sales and interest charged to related parties	Purchase and interest from/due to related parties	Other transactions with related parties	Amounts owed by related parties	Amounts owed to related parties
Parent companies	2020	1'311'543	-5'098	27'346	227'721	-3'686
	2019	910'945	-	45'660	200'749	-3'569
Shareholders of the ultimate parent company						
	2020	522'734	-2'577'934	-2'199'608	20'353	-6'722'581
	2019	-	-1'134'950	-1'346'934	488'800	-16'053'507

#### Parent companies

In 2020, revenues from related parties were mainly generated from raw materials and goods sold to parent companies (similar to 2019).

### Shareholders of the ultimate parent

In 2020, revenues from related parties were mainly generated from goods sold to shareholders of the ultimate parent company.

Concerning the expenses in relation to the related parties, service fees were paid to shareholders of the ultimate parent for CHF 832'990 (2019: CHF 849'969). The aim of these fees is mainly to cover the management services provided to the Group.

In addition, administrative expenses related to mandate agreements of CHF 1'054'492 (2019: CHF 0) have been recorded for the period 2020. The services are provided in the areas of management and legal and managerial consulting.

In addition, financial expenses were charged to the Group for CHF 359'807 (2019: CHF 284'981) in relation to the borrowings made by the shareholders of the ultimate parent. In 2020, a loan was granted to shareholders of ultimate parents and it generated a financial income of CHF 9'166 (2019: CHF 0).

Non-operating expenses of CHF 339'812 to shareholder are the result on the sale of a building to a related party (2019: CHF 0).

In 2020, rents for CHF 2'323'776 were collected by companies owned by shareholders of ultimate parent company (in 2019: CHF 1'346'934). In 2020, a company of Acrotec Group recharged CHF 124'168 in administrative costs to a shareholder of the ultimate parent company (in 2019: CHF 0).

The amount owed by related parties corresponds to the current account with two shareholders of the ultimate parent for CHF 20'353 (2019: CHF 8'800). Moreover, as at 31 december 2019 there was a prepaid rent to a company owned by a shareholder's relative of the ultimate parent for CHF 480'000.

In 2020, the current financial liabilities of CHF 6'411'450 (2019: CHF 14'904'802) are owed to shareholders in the relation to vendor loans (bearing interest for CHF 160'232 in 2020 and for CHF 731'287 in 2019, recorded in accruals) underwritten during the acquisition of subsidiaries. Moreover, earnout of CHF 8'654'600 (2019: 36'101'082) related to 2019 companies acquisitions are due to shareholder of ultimate parent (provisions).

Finally, CHF 150'899 are owed to shareholders as current account (2019: CHF 417'418)

#### 31. Commitments and contingencies

a. Contingent assets and liabilities	31/12/2020	31/12/2019
Guarantee for credit line	33'000'000	33'000'000
	33'000'000	33'000'000

If H2i sells its patent in the 5 years following the acquisition of the company, the Groupe Acrotec must pay half of the amount of the sale of the patent to the former shareholder.

b. Pledged assets	31/12/2020	31/12/2019
Building	47'103'515	51'780'458
Machine under lease	31'279'865	29'358'901
Vehicle under lease	2'434'795	2'039'535
Equipment under lease	3'511'796	2'366'065
IT under lease	288'967	306'474
	84'618'938	85'851'434

#### c. Leasing

All financial leases were activated.

The Group's fixed operating leasing commitments that cannot be cancelled within 12 months and which are not recognized in the balance-sheet are due as follows:

	31/12/2020	31/12/2019
Between 1 and 5 years	12'766'515	12'918'335
Overs 5 years	14'274'546	15'475'661
	27'041'061	28'393'996

### d. Precious metal loan

On 18 July 18 2019, the Group concluded a 110 kg metal loan with a Swiss bank; the term of this loan is 6 months, renewable.

In July 2020, this loan was renewed for 100 kg; a repurchase of 10 kg of gold was therefore made by the group from the bank for CHF 547'500 (note 8). In September 2020, the group took out an additional loan of 10 kg, bringing the balance of the metal loan to 110 kg as of 31.12.2020.

### 32. Subsequent events after the year-end closing

On December 2020, Global investment firm The Carlyle Group has agreed to acquire the Acrotec Group, in partnership with its management team, from Castik Capital. This transaction was closed on February 20, 2021 and will result in accelerated growth for the Acrotec Group through the development of its existing platform and through acquisitions. The settlement of the acquisition of the Acrotec Group constitutes a change of control according to the terms of the three outstanding Acrotec bonds. The terms of the bonds entitle the respective bondholders to request Groupe Acrotec SA to repurchase their bonds at par plus accrued interest. New secured financing has been arranged to refinance the bonds.

In March 2021, the Group acquired 100% of the voting shares of RC5 Holding SA which holds 100% of the voting shares of easyDec SA (Delémont) and 100% of the voting shares of of AlphaDec SA (Court). easyDec SA (Delémont) also holds 40% of the voting shares of Politrempe SA (Courrendlin). In the second quarter of 2021, the Group is planning to also acquire the other 60% of the voting shares of Politrempe SA from three minority shareholders.

easyDec SA is a bar turning supplier specialised in micro-components and predominantly produces high precision components for the watch manufacturing industry. AlphaDec SA exclusively provides machine revision services for easyDec SA. Politrempe SA provides finishing and surface treatment services to easyDec SA and to external customers.

In February 2021, the Group signed a Letter of Intention for the acquisition of 100% of the voting rights of Microweld SAS. The deal is scheduled to close in the second quarter of 2021, under certain conditions.
