GROUPE ACROTEC

Situated in the heart of the Swiss Canton of Jura and established in 1984, VARDECO SA is, first of all, your privileged partner for the screw-machining of components destined to the electronic industry.

With at our disposal, fast, modern and performing production units, we are able to manufacture a yearly volume of more than 2 billion parts, of which 95% is exported world-wide.

While perfectly responding to the ISO 9001 and IATF 16949 norms, VARDECO SA has promoted to high levels a more than secular industrial tradition, thanks to its very qualified team always aware of and always preoccupied by satisfying our customers specific needs.

GROUPE ACROTEC

## AEROSPACE AND DEFENCE

- Connectivity components for on-board equipment
- Plugs for multi-pole connectors
- Power and signal contacts

## CONNECTIVITY, ELECTRONICS AND INDUSTRIAL EQUIPMENT

- Machining of interconnection components
- D-Sub, IC-Socket, PGA, BGA, board to board connectors PCB connectors
- Components for micro and nano connectors

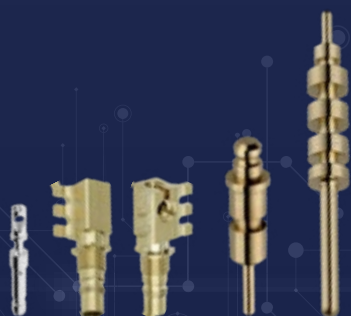

## AUTOMOTIVE

- Male and female high-frequency plugs
- On-board interconnection.

## MEDICAL

- Contacts for laboratory equipment and connectors
- Medical and dental equipment

## TELECOMMUNICATIONS

- Machining of parts for fibre optics
- RF, coaxial, high-frequency and Wireless components.

## WATCHMAKING

- Large-scale production of components for watchmaking movements
- All parts machined for the Luxury industry
