

CERTIFIED ISO 9001 & IATF 16949

ACTIVITIES

- High precision bar turning for the automotive, connectivity, industrial equipment, aerospace, telecommunications, defense and medical market

CAPACITY

- Machining from Ø 0.3mm to Ø 19 mm using more than 250 high-speed lathes customized by Vardeco
- Capacity for over 2 billion parts per year
- Special transfer machines
- Clip-shell and hood assembly machines
- 100% camera sorting process

MATERIALS

- Brass, bronze, copper, beryllium copper, nickel silver Arcap, lead free brass, plastic alloys, aluminium, steel and stainless steel

SPECIALIZATIONS

- Very high speed bar turning for components in small, medium and large series for the electronic industry

TREATMENTS

- Integrated heat and galvanic treatments (batch or selective), deburring, polishing, sand blasting

CERTIFICATIONS

- ISO 9001
- IATF 16949 : Automotive quality management system
